Arbo 925 Primer is a one part, solvent containing, air-drying isocyanate resin based primer.

**MAIN APPLICATIONS**
Recommended for use in conjunction with various Arbo sealants for the priming of asphalt and bituminous surfaces.
Please consult Adshead Ratcliffe Technical Services Department for advice.

**APPLICATION INSTRUCTIONS**
The joint surfaces must be clean, dry and free from all contamination. The surfaces should be degreased using the appropriate Arbo Cleaner. Apply one coat of Arbo 925 Primer using a clean dry brush and allow it to dry for a least 1 hour but not more than 8 hours before applying the sealant.

All joint preparation and priming should be carried out in accordance with BS 8000 Part 16, the British Standard for the sealing of joints in buildings using sealants.

**TECHNICAL DATA**
