Arbo SA is a solvent free, one part elastomeric sealant adhesive based on neutral curing silicone polymer technology. SA combines good initial grab to a variety of common construction substrates with long term performance.

MAIN APPLICATIONS
For bonding Arbo EPDM and other membranes including Butyl sheeting to aluminium (both Polyester Powder Coated and other finishes) and PVCu for both factory and site applications. Recommended for factory applications with the use of terminator strips but can also be used for site work. For porous substrates Arbo 2650 Primer is recommended.

Adshead Ratcliffe Technical Service Department can advise if adhesion tests are required to new, untested substrates or if the product will come into contact with natural stone substrates.

APPLICATION INSTRUCTIONS
Surface preparation
Surfaces must be clean, dry and free from all contamination. The surfaces should be degreased using the appropriate Arbo Cleaner. If EPDM is left out on site we recommend the use of Arbo Cleaner 16 before bonding. Primers may be required on some porous substrates. It is recommended that Adshead Ratcliffe Technical Services Department should be consulted and advice obtained with regard to the choice of primer for specific purposes.

APPLICATION
Arbo SA is supplied in 600ml foil packs and can be applied using an Arbo Foil Pack Gun. Apply in 8mm beads approximately 25mm apart to one substrate only. Press membrane onto the SA by suitable application tool (roller, tooling stick or other appropriate implement).

NB: Do not apply at temperatures below 5° C in damp and icy conditions.

**NB:** Through cure rate will be retarded where passage of moisture to the centre of a large amount of product occurs.

PACKAGING

20 x 600ml foils per box. Polyethylene Nozzles are included in each box.

COLOURS

Black

STORAGE LIFE

12 months in original unopened packaging stored in a cool, dry place out of direct sunlight

HEALTH AND SAFETY

Contains Oximosilanes. Please consult Material Safety Data Sheet for full information

ACCESSORIES

**Primer**

Arbo 2650 Primer (500ml tin). Yield approximately 250 metres per tin

**Cleaners**

Arbo Cleaner No.17- 1 Litre Tin (Xylene based – not suitable for use with plastics or delicate finishes)

Arbo Cleaner No. 16 - 1 Litre Tin (Alcohol Based)

**Ancillary Equipment**

Polyethylene Nozzles

Arbo Foil Pack Guns

Arbo application roller

**SPECIFICATION COMPLIANCE**

BS EN ISO 11600 – F/G – 25 LM

IMPORTANT: The information in this leaflet is given in good faith and based on results gained from experience and tests. However, all recommendations or suggestions are made without guarantee since the conditions of use are beyond our control. Goods are supplied subject to the Company’s terms and conditions of sales, a copy of which is available on request.
