ARBOFLEX PU SEALANT is a one part polyurethane sealant which cures on exposure to moisture vapour to form a tough but flexible membrane. ARBOFLEX PU SEALANT has good adhesion to concrete, brickwork, metals and many other common construction substrates.

MAIN APPLICATIONS
Recommended for use in floor joints, expansion joints and structural cladding applications.

NB: Not recommended for use against natural stone.

APPLICATION INSTRUCTIONS
Joint Preparation
The joint surfaces must be clean, dry and free from all contamination. The surfaces should be degreased using the appropriate Arbo Cleaner. Primers may be required on some substrates. It is recommended that our technical department should be consulted and advice obtained with regard to the choice of primer for specific purposes.

Joint Backing
Where applicable, appropriate joint filler e.g. closed cell polyethylene foam, should be used to provide the correct joint depth.

Application
All joint preparation, priming, and sealant application should be carried out in accordance with BS 8000 Part 16, the British Standard for the sealing of joints in buildings using sealants. ARBOFLEX PU Sealant is supplied in 300ml cartridges and can be applied into the joint using an Arbo Foil Pack Gun.

### JOINT SIZE SUITABILITY

**Joint Width**
- Minimum 6mm
- Maximum 25mm (single application); for advice on multiple applications please contact Adshead Ratcliffe Technical Services Department.

**Joint Depth**
- Minimum 10mm on porous substrates
- Minimum 6mm on non-porous substrates
- Maximum 20mm

**Width: Depth ratio (within above min/max restrictions)**
- 2:1 butt joints
- 1:1 lap joints

### STORAGE LIFE

12 months in original unopened packaging stored in a cool, dry place out of direct sunlight.

### HEALTH & SAFETY

Contains Isocyanates. Please consult Material Safety Data Sheet for full information.

### PACKAGING

12 x 300ml cartridges. Polyethylene Nozzles are included in each box.
ACCESSORIES

Primers
ARBOKOL AG2 PRIMER
Yield approximately 125 metres per 500 ml.

Cleaners
Arbo Cleaner No.17-1 Litre Tin
(Xylene based – not suitable for use with plastics or delicate finishes)
Arbo Cleaner No.16-1 Litre Tin
(Alcohol Based)

Equipment
Arbo Caulking Gun

SPECIFICATION COMPLIANCE

BS EN ISO 11600 – F – 25 HM
Certified under the Harmonized European Standard EN15651. Please refer to separate Declaration of Performance for more details.
