

Arbo AFS Primer

Arbo AFS Primer is a one part, solvent containing, air-drying polyacrylate/silane blend based primer.

MAIN APPLICATIONS

Recommended for use in conjunction with the Arbo Membrane System for use with Arbo SA and Arbo Membrane Adhesive. Recommended for the priming of porous surfaces such as sound concrete, cementitious boards, timber and other porous surfaces. Arbo AFS Primer is easy to apply and very convenient for large surface area applications.

NB

Due to the variety of substrates available it is recommended that a trial application is carried out before construction commences. Adshead Ratcliffe Technical Service Department can advise if adhesion tests are required to new, untested substrates.

APPLICATION INSTRUCTIONS

The joint surfaces must be clean, dry and free from all contamination. The surfaces should be degreased using the appropriate Arbo Cleaner. Apply Arbo AFS Primer using a clean dry brush or roller and allow to dry for a least 1 hour but not more than 8 hours before applying the adhesive.
